Log Moderator Actions

What it Does:
Logs the Actions of Moderators and Admins.

Why Should I Use It:
To monitor the actions of your Moderators and other Admins.

By Default This Is:
Enabled.

How Do I Make It Work:
It works right away and logs the following actions
- Posts Deleted
- Posts Moved
- Posts Locked
- Posts Unlocked
- Posts Split
- Posts Merged
- Posts Edited
- Stickies
- Announcements
- Global Announcements
- Admins who access the Administrators Panel

Configuring Log Moderator Actions

Go into Admin [Forums]
(http://www.yoursite.com/modules/Forums/admin/index.php). Now click on the Logs Config link under the Logs group. Here is where you can change settings related to Log Moderation Actions.

Allow other Admins to see the Log Actions: Allows other Admins besides the first one created to see the Logs. Default Setting is **Disabled**.

Choose an username to add: Allows you to choose which Admins can see the logs. Select Admins by a dropdown box and click Add.

Choose an username to delete: Allows you to choose which Admins cannot see the logs anymore. Select the admin in the box and click Delete.

Prune Logs: Allows you to set the number of days before the log will be wiped. Default setting is **0**. 0 means they will never get erased.

Checking The Logs

Go into Admin [Forums]
(http://www.yoursite.com/modules/Forums/admin/index.php). Now click on the Logs Actions link under the Logs group. Here is where you can change settings related to Log Moderation Actions.

Once you click the link you will see a list of actions, The topic number it was done in, what was done, who did and their ip address and when. You can also choose to delete the logs by clicking the box on the far right and then hit delete. You can also choose how they are sorted by and whether ascending or descending.

Errors

I'm the only admin that can see the logs

- Check your logs Config and add your Admins in there refer to Configuring Log moderator actions mod above
